DOĞA İLE BERABER ÇALIŞIYORUZ..

By recycling, we protect both nature and our resources.
For this reason, energy savings are achieved by reducing the number of processes in production.
By reducing the use of natural resources, saving energy,
contributes to the development of our country
by creating job opportunities and reducing the cost of raw materials.

SÜRDÜRÜLEBİLİRLİK : 3R KURALI

SUSTAINABILITY: THE THREE R'S RULE

RECYCLE / GERİ DÖNÜŞTÜR

Doğa dostu Nonwoven çantalar kullanım ömrünü tamamladıktan sonra kolayca ve düşük maliyetle geri dönüşür. Plastik market poşetleri ekonomik değeri düşük olduğundan geri dönüşüme katılamadan doğaya terk edilir.

REDUCE / TÜKETİMİ AZALT

Doğa dostu Nonwoven çanta kullanarak tüketimi azaltabilirsiniz. Plastik market poşetleri dayanıksız olması nedeniyle gereksiz tüketime yol açmaktadır.

REUSE / TEKRAR KULLAN

Doğa dostu Nonwoven çantalar ortalama 104 defa kullanılır. Plastik market poşetleri ise tek kullanımlıktır.

As Tiryakiler Plastik, we aim to prevent waste and save resources with our "Zero Waste" management philosophy. to ensure efficient use, reviewing the causes of waste generation and waste generation, prevent or minimize; If waste is generated We aim to separate, collect and recycle at source.

WHY WORK WITH US ?
